# Introductory

---

The Publishers herewith present the Eleventh Annual Edition of the Edmonton City Directory. The work has been carried on in the same careful manner by trained and experienced men and we believe we have produced a Directory to the exacting requirements of the business community and the public.

The Edition embraces the area of GREATER EDMONTON, comprising the territory of the city proper, South Edmonton (formerly Strathcona), North Edmonton, Calder, Beverly, and all adjoining subdivisions, suburbs and environs.

The advertisement department in the front together with the classified section in the back of this Directory contains an alphabetical list of all articles made and sold in Edmonton and virtually makes it a catalogue of the city which forms a most complete Buyer's Guide.

The numerical system of street naming has been used, with the exception of the following streets: Jasper Ave., Howard Ave., McDougall Ave., Rice St., Queens Ave., Fraser Ave., Namayo Ave., Kinistino Ave., Syndicate Ave., First St., Victoria Ave., McKay Ave., Hardisty Ave., Whyte Ave., Main St., Stony Plain Road, St. Albert Road, Fort Road, Saskatchewan Drive and a few lesser known streets. In the Alphabetical Directory duplicate house numbers are shown, the new first, followed by the old in parenthesis. In the Street Directory both old and new numbers are shown. Preceding the Street Directory is a ready reference guide showing the new and old street names, immediately followed by a second guide showing the old and new names. A complete list of subdivisions with locations is also included in the Street Section.

Canada with every nation is passing through a time of stress and tribulation in this World's disaster. We are taking part in the greatest war of all history. Our citizens from all parts of the Dominion are on active service fighting the battles of the Empire. The loss of so many men having gone with these contingents together with the great number of British and reserves of all the Allies, have drawn from our cities, and it is quite natural to expect that the Directory would reflect this loss and be smaller on that account and contain less names. A further reduction in size has been made by eliminating all corner cards and by using a thinner grade of paper, and our patrons will appreciate these features that permit more names on each page and a reduction in the size of the Directory which is presented in a more convenient form for reference.

The publishers desire to thank their patrons and the general public for the unflinching courtesy shown their representatives and also would say that they appreciate most thoroughly the confidence and satisfaction which the business men of Edmonton have always shown in them and their work.

## Population of Edmonton, 63,400

These figures deal with Greater Edmonton and are an estimate only based upon the number of names the Directory contains. *This is not a census.*

# Greater Edmonton

## PART I.

Incorporated in 1901 when it had on y about 3,000 inhabitants, the City of Edmonton has grown to such an extent as to now number over 70,000

Edmonton is the chief distributing point in a territory of 200,000 square miles and has also a marvellously rich tributary country at the north and west

Edmonton has taken time by the forelook in the matter of public parks and has 801 acres of land for this purpose

The city is spreading out industrially there are enormous coal beds directly under Edmonton and thirty mines are worked. Industrial sites, at low rental, are leased by the city, which supplies power, light and water at cost. Apart from these mines, borings for natural gas are now being made and there seems no reason to doubt that this valuable asset to a city will be added to the already large number of important attributes which Edmonton enjoys

Edmonton municipally owns and controls its water and lighting systems, as well as its street railway franchise, all being under the management of its commissioners. The telephone system belongs, also, to the city

As the capital of the province and its educational centre, Edmonton has twenty excellent public schools equipped with the most modern requirements and follow approved educational lines from

primary to collegiate grades. There are four good colleges for higher education the University of Alberta, Robertson Presbyterian, the Oblate Fathers' College and Alberta College, with an excellent preparatory school in the Westward Ho' School for Boys. The Alberta School and McTavish Business College give complete business courses of instruction.

Three great railway systems centre on Edmonton: the Grand Trunk Pacific, the Canadian Pacific and the Canadian Northern. The Canadian Pacific has built a high level bridge and is completing terminal facilities at a cost of \$2,500,000. The Grand Trunk Pacific is finishing its latest hotel at a cost of \$2,000,000.

Edmonton is the chief central point of the Edmonton, Yukon and Pacific Railway, the Dunvegan, Peace River and British Columbia and the Alberta and Northwestern Railway. These roads are under construction.

Already the home market swallows up all that is locally produced and good prices are assured for those bringing their products into Edmonton. This industry could be better extended, as poultry and farm produce, vegetables and fruits have to be brought in from California and other places. No more profitable business could be indulged in than this

### All Numerical System of Street Naming and House Numbering Plan

Streets run North and South, odd numbers South side ; Avenues run East and West, odd numbers East side.

Streets are numbered from the East. Avenues are numbered from the South.

Old 1st Street is 101st Street. Jasper Avenue is 101st Avenue.

Short avenues and short streets have an A number.

The East and South have the small numbers. The North and West parts have large numbers.

The original names of the following Avenues and Streets have been retained in this issue of the Directory: Jasper Ave., Howard Ave., McDougall Ave., Rice St., Queen Ave., Fraser Ave., Namayo Ave., Kinistino Ave., Syndicate Ave., First St., Victoria Ave., McKay Ave., Hardisty Ave., White Ave., Main St., Stony Plain Road, St. Albert Road, Fort Road, Saskatchewan Drive and a few lesser known streets.

### Examples House Numbering

1. 10312 on 96th Street. 12 is the house number as it is the last two figures. 103 (or Clara Street) is the First Avenue south of that block on 96th Street (or Kinistino).

2. 10348 on 95th Street. 48 is the house number, 103 is the Avenue south, 95th Street (or Syndicate).

3. 9624 on 102nd Avenue or Elizabeth Street. House No. 24, 96th Street (or Kinistino) is the first street east of that house. The house is between 96th and 97th Streets (or Kinistino and Namayo).

**NOTE** -The arrangement of the following Street and Avenue Directory is in numerical order, with avenues preceding streets. Avenues and streets not numerically named appear first in Alphabetical Order. The arrangement by directions is East, West, South and North.

Where the odd and even numbers on an Avenue or Street are separated, the South Side (odd numbers) on Avenues appear first, and the East Side (odd numbers) appear first on Streets.
